

HAND AND WRIST ARTHROPLASTIES IN ROME, 13 - 14 MAY 2022

13 MAGGIO 2022

08:00 Registration at the Course

08:30 Introduction at the Course

THE CMC JOINT OF THE THUMB

08:45 What did we surgeons did until now to relief pain on the thumb CMC joint: introduction to this session

Vincent Mazzone

09:00 Trapeziectomy: what did we learn from a long experience **Michele Rampoldi**

INTERPOSITION IMPLANTS

09:15 Interposition implants on the thumb CMC: results and state of the art **Gaetano Carriere**

ANATOMIC IMPLANTS TODAY

09:30 ISIS: project and history of a thumb CM prosthesis **Ludovic Bincaz**

09:45 Maia **Nicola Papapietro**

10:00 Horus **Ludovic Bincaz**

10:15 Touch **Matteo Guzzini**

10:30 Thumb CMC degenerative osteoarthritis: algorithm, guide lines and consent

Pier Paolo Borelli

10:45 Discussion on the presentations

11:00 Discussion of cases from the audience

11:20 Coffee Break

METACARPAL - PHALANGEAL IMPLANTS

11:50 Implants in post-traumatic and acute injury cases

Sergio De Santis

12:10 Our choices for MCP implants in DOA and in RA

Mario Igor Rossello

12:30 Discussion

13 MAGGIO 2022

12:45 Will the results of the new therapies make team work within rheumatologist and hand surgeon end?

M.Antonietta D'Agostino

13:00 Lunch

THE WRIST

14:00 History, successes and pifalls of wrist arthroplasties: a review of the literature

Lorenzo Garagnani

14:20 Carpal bones implants **Mario Igor Rossello**

14:40 RCPI **Lorenzo Rocchi**

14:55 APSI **Vincent Mazzone**

15:10 Custom lunate made with 3D technology: case report **Francesco Cannavò**

15:25 Discussion on the presentations

15:45 Coffee Break

TOTAL WRIST ARTHROPLASTIES

16:15 Pre-op planning in wrist arthroplasties: CT images, navigation and 3D technology : how can they help and how can they improve results and survivorship of the implants? **Giada Iannizzi**

16:30 Silicone **Mario Igor Rossello**

16:45 Uni2 **Lindsay Muir**

17:00 Remotion **Lorenzo Rocchi**

17:15 Motec **Enrico Carità**

17:30 Total Wrist implants: from then to now

Niels Van Leeuwen

18:00 Discussion on the presentations

18:10 Discussion of cases from the audience

18:30 End of the session

14 MAGGIO 2022

PROXIMAL INTER-PHALANGEAL ARTHROPLASTIES: IN-DEPTH STUDY

08:30 PIP anatomy and biomechanics: recall of the basics **Silvio Tocco**

INDICATIONS FOR PIP ARTHROPLASTY: HOW FAR ARE WE GOING?

08:45 Common indications for PIP arthroplasty

Lindsay Muir

09:00 Unconventional indications for PIP arthroplasty and complex reconstruction **Vincent Mazzone**

DEBAT ON SURGICAL APPROACHES

09:15 The dorsal approach **Mario Igor Rossello**

09:35 The volar approach **Sergio De Santis**

09:55 The lateral approach **Francesco Cannavò**

10:15 Rehabilitation after PIP joint replacement

Sabrina Centaro

10:30 Discussion on the presentations

10:45 Coffee Break

HOW I DO IT

State of the art on design and materials on PIP implants

11:15 Osteotec / Wright **Mario Igor Rossello**

11:30 Keriflex **Rocco De Vitis**

11:45 Capflex **Lindsay Muir**

12:00 Pyrocarbon **Sergio De Santis**

12:15 Pitfalls and unsatisfactory results: what did we learn? **Vincent Mazzone**

12:30 Discussion on the presentations

12:40 Discussion of cases from the audience

13:00 End of the session and course
